

SECTION 9.7: "AE-40" EXCLUSIVE AGRICULTURAL ZONE
40 ACRE MINIMUM

(Added by Ord. No. 1946, effective 8-12-76)

Purpose A.

The AE-40 Zone is an exclusive zone for intensive and extensive agricultural uses and for those uses which are a necessary and integral part of intensive and extensive agricultural operations. The purpose of this zone is as follows

1. To protect the general welfare of the agricultural community from encroachments of unrelated uses which, by their nature, would be injurious to the physical and economic well-being of the agricultural community and the community at large.
2. To prevent or minimize the negative interaction between various agricultural uses.
3. To prevent or minimize land use conflicts or injury to the physical or economic well-being of urban, suburban, or other non-agricultural uses by agricultural uses.
4. To disburse intensive animal agricultural uses in order to avoid air, water or land pollution otherwise resulting from compact distributions of such uses.
5. To provide for a minimum parcel standard which is appropriate for areas where soil capability and cropping characteristics are such that a breakdown of land into units of less than forty (40) acres would adversely affect the physical and economic well-being of the agricultural community and the community at large.
6. To function as a holding zone within Urban Area Boundaries as designated by the General Plan whereby land may be retained in agricultural use until such time as conditions warrant conversion of such land to urban use.

The minimum parcel size permitted to be created in this zone is, with certain exceptions, forty (40) acres.
