Policies	General Plan 2030	Springville Community Plan
		Policies (GPA 90-03)
Land Use	PF-1.3 Land Uses in UDBs/HDBs - The County shall encourage those types of urban land uses that benefit from urban services to develop within UDBs and HDBs. Permanent uses which do not benefit from urban services shall be discouraged within these areas. This shall not apply to agricultural or agricultural support uses, including the cultivation of land or other uses accessory to the cultivation of land provided that such accessory uses are time-limited through Special Use Permit procedures.	Avoid land use conflicts through the planned integration of uses
	PF-2.6 Land Use Consistency - The County shall require all community plans, when updated, to use the same land use designations as used in this Countywide General Plan (See Chapter 4-Land Use). All community plans shall also utilize a similar format and content. The content may change due to the new requirements such as Global Climate Change and Livable Community Concepts, as described on the table provided (Table 2.1: Community Plan Content). Changes to this format may be considered for unique and special circumstances as determined appropriate by the County. Until such time as a Community Plan is adopted for those communities without existing Community Plans, the land use designation shall be Mixed Use, which promotes the integration of a compatible mix of residential types and densities, commercial uses, public facilities, and services and employment opportunities.	Promote concentration of similar or compatible uses
	PF-2.8 Inappropriate Land Use - Areas within UDBs are hereby set aside for those types of urban land uses which benefit from urban services. Permanent uses which do not benefit from such urban services shall be discouraged within the UDBs. This is not intended to apply to agricultural or agricultural supported uses, including the cultivation of land or other uses accessory to the cultivation of land, provided that such accessory uses are time-limited through special use permit procedures.	Establish residential densities that are compatible with historical land use patterns and are consistent with public service levels.
	PF-4.7 Avoiding Isolating Unincorporated Areas The County may oppose any annexation proposal that creates an island, peninsula, corridor, or irregular boundary. The County will also encourage the inclusion of unincorporated islands or peninsulas adjacent to proposed annexations.	Recognize, through zoning, land uses which are different from, yet compatible with, the prevailing land uses in the area.
Land Use	LU-1.1 Smart Growth and Healthy	Maintain the integrity of past
Element	 Communities - The County shall promote the principles of smart growth and healthy communities in UDBs and HDBs, including: 1. Creating walkable neighborhoods, 	development patterns and features

 Mixing land uses, Directing growth toward existing communities, 	
6. Building compactly,	
7. Discouraging sprawl,	
8. Encouraging infill,	
9. Preserving open space,	
10. Creating a range of housing opportunities and	
choices,	
11. Utilizing planned community zoning to	
provide for the orderly pre-planning and long-	
term development of large tracks of land which	
may contain a variety of land uses, but are	
under unified ownership or development	
control, and	
12. Encouraging connectivity between new and	
existing development. LU-1.2 Innovative Development - The County	Preserve and maintain area and structures
shall promote flexibility and innovation through the	within the UDB that are reflective of
use of planned unit developments, development	Springville's cultural heritage
agreements, specific plans, Mixed Use projects, and	1 8 8
other innovative development and planning	
techniques.	
LU-1.3 Prevent Incompatible Uses - The County	Protect archaeological resources and sites
shall discourage the intrusion into existing urban	within Springville
areas of new incompatible land uses that produce significant noise, odors, or fumes.	
LU-1 4 Compact Development - The County shall	Encourage a variety of commercial-

Future residential development projects shall provide an adequate and safe supply

suitability of any proposed or additional	
development.	
LU-1.8 Encourage Infill Development - The County shall encourage and provide incentives for infill development to occur in communities and hamlets within or adjacent to existing development in order to maximize the use of land within existing urban areas, minimize the conversion of existing agricultural land, and minimize environmental concerns associated with new development.	Future development projects shall provide adequate and safe facilities for the disposal of sewage effluent.
LU-1.10 Roadway Access - The County shall require access to public roadways for all new development.	Future developments shall contain adequate facilities for collection and disposal of stormwater run-off with minimal effects to nearby properties and the environment.
LU-2. Agricultural Lands - The County shall maintain agriculturally-designated areas for agriculture use and by directing urban development away from valuable agricultural lands to cities, unincorporated communities, hamlets, and planned community areas where public facilities and infrastructure are available.	Future developments shall contain adequate facilities for protecting residents and property from the hazards of wildland and structural fires.
LU-2.2 Agricultural Parcel Splits - The County shall deny requests to create parcels less than the minimum allowed size in agricultural designated areas, unless specifically provided by Division of Land Exceptions in the Tulare County Zoning Ordinance, as may be adopted by the Board of Supervisors, based on concerns that these parcels are less viable economic farming units and that the resultant increase in residential density increases the potential for conflict with normal agricultural practices on adjacent parcels. Evidence that the affected parcel may be an uneconomic farming unit due to its current size, soil conditions, or other factors shall not alone be considered a sufficient basis to grant an exception. The RVLP shall be the tool to determine the viability of a given agricultural parcel in the valley and its ability to be subdivided, unless specifically provided by Division of Land Exceptions in the Tulare County Zoning Ordinance.	All new development proposals shall contain adequate provisions for vehicular access to a public road.
LU-2.3 Open Space Character - The County shall require that all new development requiring a County discretionary approval, including parcel and subdivision maps, be planned and designed to maintain the scenic open space character of open space resources including, but not limited to, agricultural areas, rangeland, riparian areas, etc., within the view corridors of highways. New development shall utilize natural landforms and vegetation in the least visually disruptive way possible and use design, construction and maintenance techniques that minimize the visibility of structures on hilltops, hillsides, ridgelines, steep slopes, and canyons.	Future road designs and alignments shall be compatible with existing topography and physical conditions to ensure that such roads can provide safe and permanent across to developing areas.

LU-2.4 Residential Agriculture Uses - The County shall limit, to the extent allowed by law, residential development of lands designated for agricultural use. Only residences needed to support farming operations, agriculture, tourism, and agricultural support services shall be allowed.	Future development projects shall provide sufficient off-street parking to satisfy anticipated demands.
LU-2.5 Agricultural Support Facilities - The County shall encourage beneficial reuse of existing or vacant agricultural support facilities for new businesses (including non-agricultural uses). LU-2.6 Industrial Development - Other than	Deficiencies in the existing circulation systems, such as existing, excessively long dead-end roads to a collector or arterial road, shall be alleviated. All developments occurring along State
provided in Policy LU-2.5: Agricultural Support Facilities, the County shall, and the cities should, through their industrial development policies, approve only those agriculturally-oriented or related industries and uses that can demonstrate, whether by location and/or controlled methods of operation, that they will not adversely affect agricultural production or the County's natural resources. These uses should be located inside UDBs, HDBs, PCAs and regional growth corridors unless necessary for the support of agricultural operations or as provided in Policy LU-2.5: Agricultural Support Facilities.	Highway 190 shall be designed so as to minimize potential traffic safety hazards.
 LU-2.7 Timing of Conversion from Urban Reserve - The following three criteria shall be used to determine when conversion of Urban Reserve designated properties to urban uses is appropriate: 1. The property is not subject to an agricultural preserve contract; 2. Full urban services, schools, and infrastructure sufficient to serve urban development either are available or can be made available; and 3. At least 30 percent of the property boundaries are contiguous to existing urban development. 	Future roads shall be designed to provide safe and efficient access for emergency equipment
LU-2.8 Merger of Sub-Standard Agricultural Parcels - The County shall provide incentives to encourage the merger of sub-standard parcels of less than 10 acres in size located in agricultural areas, where such parcels are under common ownership.	Future roads shall be designed to provide safe and efficient access for emergency equipment
LU-3.1 Residential Developments - The County shall encourage new major residential development to locate near existing infrastructure for employment centers, services, and recreation.	Existing deficiencies in the circulation systems that hinder access for emergency equipment, or prevent efficient movement of vehicles from or around emergency situations should be alleviated.
LU-3.2 Cluster Development - The County shall encourage proposed residential development to be clustered onto portions of the site that are more suitable to accommodating the development, and shall require access either directly onto a public road or via a privately-maintained road designed to meet County road standards.	A system of looped collector roads should be established to provide access to the undeveloped areas in the western portion of the UDB

LU-3.3 High-Density Residential Locations - The	Ensure that the visual qualities available
County shall encourage high-density residential	from State Highway 190 are maintained
development (greater than 14 dwelling units per	and protected against obtrusive
gross acre) to locate along collector roadways and	development improvements.
transit routes, and near public facilities (e.g.,	
schools, parks), shopping, recreation, and	
entertainment.	
LU-3.4 Mountain, Rural, and Low-Density	Preserve the skyline and maintain an
Residential - The Mountain, Rural, and Low-	unobstructed scenic panorama of the
Density Residential development located outside of	foothill is for residents and visitors to
a UDB shall be subject to the following	enjoy.
requirements:	
1. Able to meet the Rural Valley Lands Plan	
policies, Foothill Growth Management Plan	
policies, or Mountain Framework Plan policies	
and requirements,	
2. Areas which qualify for minimum densities	
greater than 1 unit per 10 acres must meet the	
following characteristics (unless clustering is	
used):	
a. Average slopes must be below a 30 percent	
grade,	
b. Not identified as a moderate-to-high	
landslide hazard area, and	
c. Access to new development is provided	
via an existing publicly-maintained road	
or via a new road improved consistent with	
adopted County standards.	
LU-3.5 Rural Residential Designations - The	Perpetuate the feeling of "green" that
County shall not re-zone any new areas for	exist in Springville
residential development in the RVLP area, unless it	
can be shown that other objectives, such as buffers	
and the relationship of the development to	
surrounding uses, can be achieved.	
LU-3.6 Project Design	Land alterations (grading and
The County shall require residential project design	excavation) shall I conform to the
to consider natural features, noise exposure of	surrounding natural topography
residents, visibility of structures, circulation,	
access, and the relationship of the project to	
surrounding uses. Residential densities and lot	
patterns will be determined by these and other	
factors. As a result, the maximum density specified	
by General Plan designations or zoning for a given	
parcel of land may not be attained.	
LU-4.1 Neighborhood Commercial Uses - The	Development activities shall include
County shall encourage the development of small	adequate provisions for sediment and
neighborhood convenience and grocery facilities to	erosion control.
meet the everyday shopping and personal needs of	
immediately surrounding residential land uses in	
 communities and hamlets.	
LU-4.3 Commercial Service Locations - The	The quality and integrity of natural
County shall provide for commercial service	drainage channels and local water
businesses such as warehouses, repair services,	courses shall be maintained
business support services, furniture sales, and	
building materials sales where they will not	

F		
	adversely affect surrounding properties, typically in	
	areas serving occasional needs rather than day-to-	
	day needs. Criteria to be used in siting commercial	
	service areas are:	
	1. Provide good access to highways or major	
	collectors,	
	2. Buffer existing or planned residential areas,	
	3. Develop in-depth rather than in a strip fashion	
	along the access road to provide adequate room	
	for parking, buffering, etc., and	
	4. Encourage development as integrated planned	
	areas in conjunction with community	
	commercial areas or with common	
	architectural and site development features.	Maintain the integrity of the Tal. D'
	LU-4.4 Travel-Oriented Tourist Commercial	Maintain the integrity of the Tule River
	Uses - The County shall require travel-oriented	Designated Flood way so that Future
	tourist commercial uses (for example,	hazards to life and property from flood
	entertainment, commercial recreation, lodging,	conditions are minimized.
	fuel) to be used in areas where traffic patterns are	
	oriented to major arterials and highways.	
	Exceptions may be granted for resort or retreat	
	related developments that are sited based on unique	
	natural features.	
	LU-4.5 Commercial Building Design - The	Encourage new development within the
	County shall encourage that new commercial	Planned Community Commercial areas
	development is consistent with the existing design	to utilize design schemes which are
	of the surrounding community or neighborhood by	compatible with Springville's rustic
	encouraging similar façades, proportionate scale,	heritage and surrounding natural features.
	parking, landscaping, and lighting.	
	LU-4.6 Commercial Storage Facilities - The	
	County shall require that commercial storage	
	facilities, including "mini" storage, indoor and	
	outdoor storage facilities, and contractor's materials	
	storage be screened from view through landscape	
	buffers or other natural landscapes.	
	LU-5.1 Industrial Developments - The County	
	shall encourage a wide range of industrial	
	development activities in appropriate locations to	
	promote economic development, employment	
	opportunities, and provide a sound tax base.	
	LU-5.2 Industrial Park Developments - The	
	County shall encourage the development of visually	
	attractive, well-landscaped, and carefully planned	
	industrial parks in areas with suitable topography	
	and adequate infrastructure.	
	LU-5.3 Storage Screening - The County shall	
	require adequate landscaping and screening of	
	industrial storage areas to minimize visual impacts	
	and enhance the quality of the environment.	
	LU-5.4 Compatibility with Surrounding Land	
	Use - The County shall encourage the infill of	
	existing industrial areas and ensure that proposed	
	industrial uses will not result in significant harmful	
1	impacts to adjacent land uses.	

LU-5.5 Access - The County shall locate industrial	
development where there is access from collector or	
arterial roads, and where industrial/heavy	
commercial traffic is not routed through residential	
or other areas with uses not compatible with such	
traffic.	
LU-5.6 Industrial Use Buffer - Unless mitigated,	
the County shall prohibit new heavy industrial uses	
to a minimum of 500 feet from schools, hospitals,	
or populated residential areas (more than 10	
dwelling units within a quarter mile diameter area).	
The buffer area may be used for activities not	
creating impacts to adjoining sensitive land uses for	
uses accessory to the heavy industrial use. The	
establishment of a buffer may not be required when	
mitigated or may not apply to industrial uses that do	
not impact adjoining uses identified herein. The	
buffer area shall be landscaped and maintained.	
LU-7.3 Friendly Streets	
The County shall encourage new streets within	
UDBs to be designed and constructed to not only	
accommodate traffic, but also serve as comfortable	
pedestrian and cyclist environments. These should	
include, but not be limited to:	
1. Street tree planting adjacent to curbs and	
between the street and sidewalk to provide a	
buffer between pedestrians and automobiles,	
where appropriate,	
 Minimize curb cuts along streets, Sidewalks on 	
both sides of streets, where feasible,	
3. Bike lanes and walking paths, where feasible	
on collectors and arterials, and	
4. Traffic calming devices such as roundabouts,	
bulb-outs at intersections, traffic tables, and	
 other comparable techniques.	
LU-7.4 Streetscape Continuity	
The County shall ensure that streetscape elements	
(e.g., street signs, trees, and furniture) maintain	
visual continuity and follow a common image for	
each community.	
LU-7.5 Crime Prevention through Design	
The County shall encourage design of open space	
areas, bicycle and pedestrian systems, and housing	
projects so that there is as much informal	
surveillance by people as possible to deter crime.	
LU-7.13 Preservation of Historical Buildings	
The County shall encourage and support efforts by	
local preservation groups to identify and	
rehabilitate historically significant buildings.	
LU-7.14 Contextual and Compatible Design	
The County shall ensure that new development	
respects Tulare County's heritage by requiring that	
development respond to its context, be compatible	
with the traditions and character of each	
community, and develop in an orderly fashion	

	which is compatible with the scale of surrounding	
	structures.	
	LU-7.15 Energy Conservation	
	The County shall encourage the use of solar power	
	and energy conservation building techniques in all	
	new development.	
	LU-7.16 Water Conservation	
	The County shall encourage the inclusion of "extra-	
	ordinary' water conservation and demand	
	management measures for residential, commercial,	
	and industrial indoor and outdoor water uses in all	
	new urban development.	
	ED-2.11 Industrial Parks	
	As part of new or updated community plans, the	
	County shall designate sites for industrial	
	development to meet projected demand.	
	Housing Policy 3.24	
	When locating agricultural industry in rural areas, a	
	determination should be made that there are transit	
	opportunities and an adequate employment base	
	living within a reasonable distance to the site.	
	AQ-3.2 Infill near Employment	
	The County shall identify opportunities for infill	
	development projects near employment areas	
	within all unincorporated communities and hamlets	
	to reduce vehicle trips.	
	AQ-3.6 Mixed Land Uses	
	The County shall encourage the clustering of land	
	uses that generate high trip volumes, especially	
	when such uses can be mixed with support services	
	and where they can be served by public	
	transportation.	
	PFS-8.4 Library Facilities and Services	
	The County shall encourage expansion of library	
	facilities and services as necessary to meet the	
	needs (e.g., internet access, meeting rooms, etc.) of	
	future population growth.	
Circulation	Q-3.3 Street Design	
D. I	The County shall promote street design that	
Policies	provides an environment which encourages transit	
	use, biking, and pedestrian movements.	
	LU-7.3 Friendly Streets	
	The County shall encourage new streets within	
	UDBs to be designed and constructed to not only	
	accommodate traffic, but also serve as comfortable	
	pedestrian and cyclist environments. These should	
	include, but not be limited to:	
	• Street tree planting adjacent to curbs and	
	between the street and sidewalk to provide a	
	buffer between pedestrians and automobiles,	
	where appropriate,	
	• Minimize curb cuts along streets,	
	• Sidewalks on both sides of streets, where	
	feasible,	
	• Bike lanes and walking paths, where feasible	

	11 / 1 / 1 1	
	on collectors and arterials, and	
	• Traffic calming devices such as roundabouts,	
	bulb-outs at intersections, traffic tables, and	
	other comparable techniques.	
	LU-7.4 Streetscape Continuity	
	The County shall ensure that streetscape elements	
	(e.g., street signs, trees, and furniture) maintain	
	visual continuity and follow a common image for	
	each community.	
	LU-1.10 Roadway Access	
	The County shall require access to public roadways	
	for all new development.	
	SL-2.1 Designated Scenic Routes and	
	Highways	
	The County shall protect views of natural and	
	working landscapes along the County's highways	
	and roads by maintaining a designated system of	
	County scenic routes and State scenic highways by:	
	• Requiring development within existing eligible	
	State scenic highway corridors to adhere to	
	land use and design standards and guidelines	
	required by the State Scenic Highway Program,	
	• Supporting and encouraging citizen initiatives	
	working for formal designation of eligible	
	segments of SR 198 and SR 190 as State scenic	
	highways,	
	• Formalizing a system of County scenic routes	
	throughout the County, and	
	• Requiring development located within County	
	scenic route corridors to adhere to local design	
	guidelines and standards.	
	SL-4.1 Design of Highways	
	The County shall work with Caltrans and Tulare	
	County Association of Governments (TCAG) to	
	ensure that the design of SR 198 and other State	
	Highways protects scenic resources and provides	
	access to vistas of working and natural landscapes	
	by:	
	1. Limiting the construction of sound walls that	
	block views of the County's landscapes	
	(incorporate setbacks to sensitive land uses to	
	avoid noise impacts whenever feasible),	
	2. Using regionally-appropriate trees and	
	landscaping and incorporating existing	
	landmark trees,	
	3. Preserving historic and cultural places and	
	vistas,	
	8	
	along State scenic highways and County scenic	
	routes, and along areas exposed to a large	
	viewing area, and	
	5. Promote highway safety by identifying	
	appropriate areas for traffic pull-outs and rest	
	areas.	

SLADD COLD	
SL-4.2 Design of County Roads	
The County's reinvestment in rural County roads	
outside urban areas should, in addition to meeting	
functional needs and safety needs, preserve the	
experience of traveling on the County's "country	
roads" by:	
1. Maintaining narrow as possible rights-of-ways,	
2. Limiting the amount of curbs, paved shoulders,	
and other "urban" edge improvements,	
8 8 8 8 9	
4. Promote County road safety by identifying	
appropriate areas for traffic pull-out.	
TC-1.1 Provision of an Adequate Public Road	
Network	
The County shall establish and maintain a public	
road network comprised of the major facilities	
illustrated on the Tulare County Road Systems to	
accommodate projected growth in traffic volume.	
TC-1.2 County Improvement Standards	
The County's public roadway system shall be built	
and maintained consistent with adopted County	
Improvement Standards, and the need and function	
of each roadway, within constraints of funding	
capacity.	
TC-1.6 Intermodal Connectivity	
The County shall ensure that, whenever possible,	
roadway, highway, and public transit systems will	
interconnect with other modes of transportation.	
Specifically, the County shall encourage the	
interaction of truck, rail, and air-freight/passenger	
movements.	
TC-1.7 Intermodal Freight Villages	
The County shall consider the appropriate	
placement of intermodal freight villages in	
locations within the Regional Growth Corridors.	
TC-1.8 Promoting Operational Efficiency	
The County shall give consideration to	
transportation programs that improve the	
operational efficiency of goods movement,	
especially those that enhance farm-to-market	
connectivity	
TC-1.9 Highway Completion	
The County shall support State and Federal capacity	
improvement programs for critical segments of the	
State Highway System. Priority shall be given to	
improvements to State Routes 65, 99, and 198,	
including widening and interchange projects in the	
 County.	
TC-1.10 Urban Interchanges	
The County shall work with TCAG to upgrade State	
highway interchanges from rural to urban standards	
within UDBs.	

TC 1 11 Denienel Storift and Later Aler	
TC-1.11 Regional Significant Intersections	
To enhance safety and efficiency, the County shall	
work to limit the frequency of intersections along	
regionally-significant corridors.	
TC-1.12 Scenic Highways and Roads	
The County shall work with appropriate agencies to	
support the designation of scenic highways and	
roads in the County.	
TC-1.16 County Level Of Service (LOS)	
Standards	
The County shall strive to develop and manage its	
roadway system (both segments and intersections)	
to meet a LOS of "D" or better in accordance with	
the LOS definitions established by the Highway	
Capacity Manual.	
TC-1.18 Balanced System	
The County shall strive to meet transportation needs	
and maintain LOS standards through a balanced	
Multimodal Transportation Network that provides	
alternatives to the automobile.	
TC-1.19 Balanced Funding	
The County shall promote a balanced approach to	
the allocation of transportation funds to optimize	
the overall County transportation system.	
TC-4.1 Transportation Programs	
The County shall support the continued	
coordination of transportation programs provided	
by social service agencies, particularly those	
serving elderly and/or handicapped.	
TC-4.2 Determine Transit Needs	
The County will continue to work with TCAG,	
cities, and communities in the County to evaluate	
and respond to public transportation needs.	
TC-4.3 Support Tulare County Area Transit	
The County shall request the support of TCAG for	
development of transit services outlined in the	
County's Transit Development Plan (TDP). Efforts	
to expand Tulare County Area Transit should be	
directed towards:	
• Encouraging new and improving existing	
transportation services for the elderly and	
disabled; and	
• Providing intercommunity services between	
unincorporated communities and cities.	
TC-4.4 Nodal Land Use Patterns that Support	
Public Transit	
The County shall encourage land uses that generate	
higher ridership including; high density residential,	
employment centers, schools, personal services,	
administrative and professional offices, and	
social/recreational centers, to be clustered within a	
convenient walking distance of one another.	
TC-4.7 Transit Ready Development	
The County shall promote the reservation of transit	
stops in conjunction with development projects in	

	likely or potential locations for future transit	
	facilities.	
	TC-5.1 Bicycle/Pedestrian Trail System	
	The County shall coordinate with TCAG and other	
	agencies to develop a Countywide integrated multi-	
	purpose trail system that provides a linked network	
	with access to recreational, cultural, and	
	employment facilities, as well as offering a	
	recreational experience apart from that available at	
	neighborhood and community parks.	
	TC-5.2 Consider Non-Motorized Modes in	
	Planning and Development	
	The County shall consider incorporating facilities	
	for non-motorized users, such as bike routes,	
	sidewalks, and trails when constructing or	
	improving transportation facilities and when	
	reviewing new development proposals. For	
	developments with 50 or more dwelling units or	
	non-residential projects with an equivalent travel	
	demand, the feasibility of such facilities shall be	
	evaluated.	
	TC-5.3 Provisions for Bicycle Use	
	The County shall work with TCAG to encourage	
	local government agencies and businesses to	
	consider including bicycle access and provide safe	
	bicycle parking facilities at office buildings,	
	schools, shopping centers, and parks.	
	TC-5.4 Design Standards for Bicycle Routes	
	The County shall utilize the design standards	
	adopted by Caltrans and as required by the Streets	
	and Highway Code for the development,	
	maintenance, and improvement of bicycle routes.	
	TC-5.5 Facilities	
	The County shall require the inclusion of bicycle	
	support facilities, such as bike racks, for new major	
	commercial or employment locations.	
	TC-5.7 Designated Bike Paths	
	The County shall support the creation and	
	development of designated bike paths adjacent to or	
	separate from commute corridors.	
	TC-5.8 Multi-Use Trails	
	The County shall encourage the development of	
	multi-use corridors (such as hiking, equestrian, and	
	mountain biking) in open space areas, along power	
	line transmission corridors, utility easements,	
	rivers, creeks, abandoned railways, and irrigation	
	canals.	
	TC-5.9 Existing Facilities	
	The County shall support the maintenance of	
	existing bicycle and pedestrian facilities.	
Housing	Housing Guiding Principle 1.1	
_	Endeavor to improve opportunities for affordable	
Policies	housing in a wide range of housing types in the	
	communities throughout the unincorporated area of	
	the County.	
	the county.	

ſ
_

	carry out the County's essential housing goal of the	
	attainment of a suitable, affordable and satisfactory	
	living environment for every present and future	
	resident in unincorporated areas.	
	Housing Policy 2.14	
	Create and maintain a matrix of Infrastructure	
	Development Priorities for Disadvantaged	
	Unincorporated Communities in Tulare County	
	thorough analysis and investigation of public	
	infrastructure needs and deficits, pursuant to Action	
	Program 9.	
	Housing Guiding Principle 2.2	
	Require proposed new housing developments	
	located within the development boundaries of	
	unincorporated communities to have the necessary	
	infrastructure and capacity to support the	
	development.	
	Housing Policy 2.21	
	Require all proposed housing within the	
	development boundaries of unincorporated	
	communities is either (1) served by community	
	water and sewer, or (2) that physical conditions	
	permit safe treatment of liquid waste by septic tank	
	systems and the use of private wells.	
	Housing Guiding Principle 3.1	
	Encourage "smart growth" designed development	
	that serves the unincorporated communities, the	
	environment, and the economy of Tulare County.	
	Housing Policy 3.11	
	Support and coordinate with local economic	
	development programs to encourage a "jobs to	
	housing balance" throughout the unincorporated	
<u> </u>	area.	
Conservation	AG-1.1 Primary Land Use	
Policies	The County shall maintain agriculture as the	
	primary land use in the valley region of the County,	
	not only in recognition of the economic importance	
	of agriculture, but also in terms of agriculture's real	
	contribution to the conservation of open space and	
	natural resources.	
	AG-1.4 Williamson Act in UDBs and HDBs	
	The County shall support non-renewal or	
	cancellation processes that meet State law for lands	
	within UDBs and HDBs.	
	AG-1.5 Substandard Williamson Act Parcels	
	The County may work to remove parcels that are	
	less than 10 acres in Prime Farmland and less than	
	40 Acres in Non-Prime Farmland from Williamson	
	Act Contracts (Williamson Act key term for	
	Prime/Non-Prime).	
	AG-1.6 Conservation Easements	
	The County shall consider developing an	
	Agricultural Conservation Easement Program	
	(ACEP) to help protect and preserve agricultural	
	lands (including "Important Farmlands"), as	
	(ACEP) to help protect and preserve agricultural	L

1	defined in this Element. This program may require	
	payment of an in-lieu fee sufficient to purchase a	
	farmland conservation easement, farmland deed	
	restriction, or other farmland conservation	
	mechanism as a condition of approval for	
	conservation of important agricultural land to non-	
	agricultural use. If available, the ACEP shall be	
	used for replacement lands determined to be of	
	statewide significance (Prime or other Important	
	Farmlands), or sensitive and necessary for the	
	preservation of agricultural land, including land that	
	may be a part of a community separator as part of a	
	comprehensive program to establish community	
	separators. The in-lieu fee or other conservation	
	mechanism shall recognize the importance of land	
	value and shall require equivalent mitigation.	
	AG-1.7 Preservation of Agricultural Lands	
	The County shall promote the preservation of its	
	agricultural economic base and open space	
	resources through the implementation of resource	
	management programs such as the Williamson Act,	
	Rural Valley Lands Plan, Foothill Growth	
	Management Plan or similar types of strategies and	
	the identification of growth boundaries for all urban	
	areas located in the County.	
	AG-1.8 Agricultural within Urban Development	
	Boundary	
	The County shall not approve applications for	
	preserves or regular Williamson Act contracts on	
	lands located within a UDB and/or HDB unless it is	
	demonstrated that the restriction of such land will	
	not detrimentally affect the growth of the	
	community involved for the succeeding 10 years,	
	that the property in question has special public	
	values for open space, conservation, other	
	comparable uses, or that the contract is consistent	
1		
	with the publicly desirable future use and control of	
	with the publicly desirable future use and control of the land in question. If proposed within a UDB of

Where necessary to address a public health issue, services should be located in public rights-of-way in order to prevent interference with agricultural operations and to provide ease of access for operation and maintenance. Service 	

AG-1.11 Agricultural Buffers]
The County shall examine the feasibility of	
employing agricultural buffers between agricultural	
and non-agricultural uses, and along the edges of	
UDBs and HDBs. Considering factors include the	
type of operation and chemicals used for spraying,	
building orientation, planting of trees for screening,	
location of existing and future rights-of-way (roads,	
railroads, canals, power lines, etc.), and unique site	
conditions.	
The County shall allow agriculturally-related uses,	
including value-added processing facilities by	
discretionary approvals in areas designated Valley	
or Foothill Agriculture, subject to the following	
criteria:	
• The use shall provide a needed service to the	
surrounding agricultural area which cannot be	
provided more efficiently within urban areas or	
which requires location in a non-urban area	
because of unusual site requirements or	
operational characteristics;	
-	
• The use shall not be sited on productive	
agricultural lands if less productive land is	
available in the vicinity;	
• The operational or physical characteristics of	
the use shall not have a significant adverse	
impact on water resources or the use or	
management of surrounding agricultural	
properties within at least one-quarter (1/4) mile	
radius;	
• A probable workforce should be located nearby	
or be readily available; and	
-	
• For proposed value-added agricultural	
processing facilities, the evaluation under	
criterion "1" above shall consider the service	
requirements of the use and the capability and	
capacity of cities and unincorporated	
communities to provide the required services.	
AG-1.16 Schools in Agricultural Zones	
The County shall discourage the location of new	
schools in areas designated for agriculture, unless	
the School District agrees to the construction and	
maintenance of all necessary infrastructure	
impacted by the project.	
AG-2.6 Biotechnology and Biofuels	
The County shall encourage the location of	
industrial and research oriented businesses	
specializing in biotechnologies and biofuels that	
can enhance agricultural productivity, enhance food	
processing activities in the County, provide for new	
agriculturally-related products and markets, or	
otherwise enhance the agricultural sector in the	
County.	

LU-7.12 Historic Buildings and Areas	
The County shall encourage preservation of	
buildings and areas with special and recognized	
historic, architectural, or aesthetic value. New	
development should respect architecturally and	
historically significant buildings and areas.	
Landscaping, original roadways, sidewalks, and	
other public realm features of historic buildings or	
neighborhoods shall be restored or repaired where	
ever feasible.	
LU-7.13 Preservation of Historical Buildings	
The County shall encourage and support efforts by	
local preservation groups to identify and	
rehabilitate historically significant buildings.	
LU-7.14 Contextual and Compatible Design	
The County shall ensure that new development	
respects Tulare County's heritage by requiring that	
development respond to its context, be compatible	
with the traditions and character of each	
community, and develop in an orderly fashion	
which is compatible with the scale of surrounding	
structures.	
LU-7.15 Energy Conservation	
The County shall encourage the use of solar power	
and energy conservation building techniques in all	
new development	
LU-7.16 Water Conservation	
The County shall encourage the inclusion of "extra-	
ordinary" water conservation and demand	
management measures for residential, commercial,	
and industrial indoor and outdoor water uses in all	
new urban development.	
Housing Guiding Principle 4.1	
Support and encourage County ordinances,	
standards, practices and procedures that promote	
residential energy conservation	
	-
Housing Policy 4.13	
 Promote energy efficiency and water conservation.	
Housing Policy 4.21	
Promote energy conservation opportunities in new	
residential development.	ļ
Housing Policy 5.24	
Encourage the development of suitable replacement	
housing when occupied housing units are	
demolished due to public action.	
ERM-1.1 Protection of Rare and Endangered	
Species	
The County shall ensure the protection of	
environmentally sensitive wildlife and plant life,	
including those species designated as rare,	
threatened, and/or endangered by State and/or	
Federal government, through compatible land use development.	

ERM-1.2 Development in Environmentally	
Sensitive Areas	
The County shall limit or modify proposed	
development within areas that contain sensitive	
habitat for special status species and direct	
development into less significant habitat areas.	
Development in natural habitats shall be controlled	
so as to minimize erosion and maximize beneficial	
vegetative growth.	
ERM-1.3 Encourage Cluster Development	
When reviewing development proposals, the	
County shall encourage cluster development in	
areas with moderate to high potential for sensitive	
habitat.	
ERM-1.4 Protect Riparian Areas	
The County shall protect riparian areas through	
habitat preservation, designation as open space or	
recreational land uses, bank stabilization, and	
development controls.	
ERM-1.5 Riparian Management Plans and	
Mining Reclamation Plans	
The County shall require mining reclamation plans	
and other management plans to include measures	
č 1	
that protect, maintain, and restore riparian resources and habitats.	
ERM-1.6 Management of Wetlands	
The County shall support the preservation and	
management of wetland and riparian plant	
communities for passive recreation, groundwater	
recharge, and wildlife habitats.	
ERM-1.8 Open Space Buffers	
The County shall require buffer areas between	
development projects and significant watercourses,	
riparian vegetation, wetlands, and other sensitive habitats and natural communities. These buffers	
should be sufficient to assure the continued	
existence of the waterways and riparian habitat in	
their natural state.	
ERM-1.12 Management of Oak Woodland Communities	
The County shall support the conservation and	
management of oak woodland communities and	
their habitats.	
ERM-2.1 Conserve Mineral Deposits	
The County will encourage the conservation of identified and/or potential mineral deposits,	
recognizing the need for identifying, permitting,	
and maintaining a 50-year supply of locally	
available PCC grade aggregate.	
ERM-2.2 Recognize Mineral Deposits	
The County will recognize as a part of the General	
Plan those areas of identified and/or potential	
mineral deposits	

ERM-3.2 Limited Mining in Urban Areas	
Within the County UDBs and HDBs, new	
commercial mining operations should be limited	
 due to environmental and compatibility concerns.	
ERM-4.1 Energy Conservation and	
Efficiency Measures	
The County shall encourage the use of solar energy,	
solar hot water panels, and other energy	
conservation and efficiency features in new	
construction and renovation of existing structures in	
accordance with State law.	
ERM-4.2 Streetscape and Parking Area	
Improvements for Energy Conservation	
The County shall promote the planting and	
maintenance of shade trees along streets and within	
parking areas of new urban development to reduce	
radiation heating.	
 ERM-7.1 Soil Conservation	
The County of Tulare shall establish the proper	
controls and ordinances for soil conservation.	
WR-1.4 Conversion of Agricultural Water	
Resources	
For new urban development, the County shall	
discourage the transfer of water used for	
agricultural purposes (within the prior ten years) for	
domestic consumption except in the following	
circumstances:	
• The water remaining for the agricultural	
operation is sufficient to maintain the land as	
an economically viable agricultural use,	
 The reduction in infiltration from agricultural 	
activities as a source of groundwater recharge	
will not significantly impact the groundwater	
basin.	
WR-1.5 Expand Use of Reclaimed Wastewater	
To augment groundwater supplies and to conserve	
potable water for domestic purposes, the County	
shall seek opportunities to expand groundwater	
recharge efforts	
WR-1.6 Expand Use of Reclaimed Water	
The County shall encourage the use of tertiary	
treated wastewater and household gray water for	
irrigation of agricultural lands, recreation and open	
space areas, and large landscaped areas as a means	
of reducing demand for groundwater resources.	
WR-3.3 Adequate Water Availability	
The County shall review new development	
proposals to ensure the intensity and timing of	
growth will be consistent with the availability of	
adequate water supplies. Projects must submit a	
Will-Serve letter as part of the application process,	
and provide evidence of adequate and sustainable	
· · ·	

	water availability prior to approval of the tentative	
	map or other urban development entitlement.	
	HS-9.2 Walkable Communities	
	The County shall require where feasible, the	
	development of parks, open space, sidewalks and	
	walking and biking paths that promote physical	
	activity and discourage automobile dependency in	
	all future communities	
	PF-1.4 Available Infrastructure	
	The County shall encourage urban development to	
	locate in existing UDBs and HDBs where	
	infrastructure is available or may be established in	
	conjunction with development. The County shall	
	ensure that development does not occur unless	
	adequate infrastructure is available, that sufficient	
	water supplies are available or can be made	
	available, and that there are adequate provisions for	
	long term management and maintenance of	
	infrastructure and identified water supplies.	
Open Space	LU-2.3 Open Space Character	
Policies	The County shall require that all new development	
Policies	requiring a County discretionary approval,	
	including parcel and subdivision maps, be planned	
	and designed to maintain the scenic open space	
	character of open space resources including, but not	
	limited to, agricultural areas, rangeland, riparian	
	areas, etc., within the view corridors of highways.	
	New development shall utilize natural landforms	
	and vegetation in the least visually disruptive way	
	possible and use design, construction and	
	maintenance techniques that minimize the visibility	
	of structures on hilltops, hillsides, ridgelines, steep	
	slopes, and canyons.	
	SL-1.3 Watercourses	
	The County shall protect visual access to, and the	
	character of, Tulare County's scenic rivers, lakes,	
	and irrigation canals by:	
	• I posting and designing and designing the	
	• Locating and designing new development to	
	minimize visual impacts and obstruction of	
	views of scenic watercourses from public lands	
	and right-of-ways, and	
	Maintaining the rural and natural character of	
	landscape viewed from trails and watercourses used	
	for public recreation.	
	ERM-5.1 Parks as Community Focal Points	
	The County shall strengthen the role of County	
	parks as community focal points by providing	
	community center/recreation buildings to new and	
	existing parks, where feasible.	

ERM-5.2 Park Amenities	
The County shall provide a broad range of active	
and passive recreational opportunities within	
community parks. When possible, this should	
include active sports fields and facilities,	
community center/recreation buildings, children's	
play areas, multi-use areas and trails, sitting areas,	
and other specialized uses as appropriate.	
ERM-5.3 Park Dedication Requirements	
The County shall require the dedication of land	
and/or payment of fees, in accordance with local	
authority and State law (for example the Quimby	
Act), to ensure funding for the acquisition and	
 development of public recreation facilities.	
ERM-5.5 Collocated Facilities	
The County shall encourage the development of	
parks near public facilities such as schools,	
community halls, libraries, museums, prehistoric	
sites, and open space areas and shall encourage	
joint-use agreements whenever possible.	
ERM-5.6 Location and Size Criteria for	
Parks	
Park types used in Tulare County are defined as	
follows:	
• Neighborhood Play Lots (Pocket Parks). The	
smallest park type, these are typically included	
as part of a new development to serve the	
neighborhood in which they are contained.	
Typical size is one acre or less. If a park of this	
type is not accessible to the general public, it	
cannot be counted towards the park dedication	
requirements of the County. Pocket Parks can	
be found in communities, hamlets, and other	
unincorporated areas.	
 Neighborhood Parks. Neighborhood parks 	
typically contain a tot lot and playground for 2-	
5 year olds and 5-12 year olds, respectively,	
one basketball court or two half-courts,	
baseball field(s), an open grassy area for	
informal sports activities (for example, soccer),	
and meandering concrete paths that contain	
low-level lighting for walking or jogging. In	
addition, neighborhood parks typically have	
picnic tables and a small group picnic shelter.	
These park types are typically in the range of 2	
to 15 acres and serve an area within a $\frac{1}{2}$ mile	
radius. Neighborhood parks can be found in	
communities, hamlets, and other	
unincorporated areas.	
• Community Parks. Community parks are	
designed to serve the needs of the community	
as a whole. These facilities can contain the	
same facilities as the neighborhood park. In	
addition, these parks can contain sports	
facilities with night lighting, community	
mennies with inght inghting, confindinty	

centers, swimming pools, and facilities of	
special interest to the community. These parks	
are typically 15 to 40 acres in size and serve an	
area within a 2 mile radius. Community parks	
can be found in communities, planned	
community areas, and large hamlets.	
• Regional Parks. Regional parks are facilities	
designed to address the needs of the County as	
a whole. These facilities may have an active	
recreation component (play area, group picnic	
area, etc.), but the majority of their area is	
maintained for passive recreation (such as	
hiking or horseback riding), and natural	
resource enjoyment. Regional parks are	
typically over 200 acres in size, but smaller	
facilities may be appropriate for specific sites	
of regional interest.	
The following guidelines should be observed in	
creating and locating County parks:	
• The County shall strive to maintain an overall	
standard of five or more acres of County-	
owned improved parkland per 1,000	
population in the unincorporated portions of	
the County,	
• Neighborhood play lots (pocket parks) are	
encouraged as part of new subdivision	
applications as a project amenity, but are not	
included in the calculation of dedication	
requirements for the project,	
• Neighborhood parks at three acres per 1,000	
population, if adjoining an elementary school	
and six acres per 1,000 population if separate	
[ERME IV-C; Open Space; Policy 3; Pg. 101],	
• Community parks at one-acre per 1,000	
population if adjoining a high school and two	
acres per 1,000 population if separate [ERME	
IV-C; Open Space; Policy 4; Pg. 101],	
• Regional parks at one-acre per 1,000	
population,	
• •	
 Only public park facilities shall be counted toward Countryvide parkland standards, and 	
toward Countywide parkland standards, and	
• A quarter mile walking radius is the goal for	
neighborhood parks.	
ERM-5.12 Meet Changing Recreational Needs	
The County shall promote the continued and	
expanded use of national and State forests, parks,	
and other recreational areas to meet the recreational	
needs of County residents.	
ERM-5.13 Funding for Recreational Areas and	
Facilities	
The County shall support the continued	
maintenance and improvement of existing	
recreational facilities and expansion of new	

	recreational facilities opportunities for County,	
	State, and Federal lands. The County shall strive to	
	obtain adequate funding to improve and maintain	
	existing parks, as well as construct new facilities.	
	ERM-5.15 Open Space Preservation	
	The County shall preserve natural open space	
	resources through the concentration of development	
	in existing communities, use of cluster development	
	techniques, maintaining large lot sizes in	
	agricultural areas, discouraging conversion of lands	
	currently used for agricultural production, limiting	
	development in areas constrained by natural	
	hazards, and encouraging agricultural and ranching	
	interests to maintain natural habitat in open space	
	areas where the terrain or soil is not conducive to	
	agricultural production.	
	HS-9.1 Healthy Communities	
	To the maximum extent feasible, the County shall	
	strive through its land use decisions to promote	
	community health and safety for all neighborhoods	
	in the County by encouraging patterns of	
	development that are safe and influence crime	
	prevention, promote a high-quality physical	
	environment and encourage physical activity by	
	means such as sidewalks and walking and biking	
	paths that discourage automobile dependency in	
Other	existing communities. ERM-6.3 Alteration of Sites with Identified	
Other	Cultural Resources	
	When planning any development or alteration of a	
	site with identified cultural or archaeological	
	resources, consideration should be given to ways of	
	protecting the resources. Development should be	
	permitted in these areas only after a site specific	
	investigation has been conducted pursuant to	
	CEQA to define the extent and value of resource,	
	and mitigation measures proposed for any impacts	
	the development may have on the resource.	
	WR-3.9 Establish Critical Water Supply Areas	
	The County shall designate Critical Water Supply	
	Areas to include the specific areas used by a	
	municipality or community for its water supply	
	system, areas critical to groundwater recharge, and	
	other areas possessing a vital role in the	
	management of the water resources in the County.	
	PFS-6.1 Telecommunications Services	
	PFS-6.1 Telecommunications Services The County shall work with telecommunication	
	The County shall work with telecommunication

	The County shall work with telecommunication providers to ensure that all residents and businesses have access to telecommunications services, including broadband internet service. To maximize access to inexpensive telecommunications services, the County shall encourage marketplace competition from multiple service providers.	
	The County shall work with telecommunication providers to ensure that all residents and businesses have access to telecommunications services, including broadband internet service. To maximize access to inexpensive telecommunications services, the County shall encourage marketplace competition from multiple service providers. PFS-8.4 Library Facilities and Services	
	The County shall work with telecommunication providers to ensure that all residents and businesses have access to telecommunications services, including broadband internet service. To maximize access to inexpensive telecommunications services, the County shall encourage marketplace competition from multiple service providers.	

	and the first sector and the sector sector of the sector sec	
	needs (e.g., internet access, meeting rooms, etc.) of	
	future population growth.	
	PFS-8.5 Government Facilities in Community	
	Centers	
	The County shall actively support development and	
	expansion of federal, State, County, districts, and	
	other governmental offices and facilities where	
	infrastructure exists within community core areas.	
	PFS-9.1 Expansion of Gas and Electricity	
	Facilities	
	The County shall coordinate with gas and electricity	
	service providers to plan the expansion of gas and	
	electrical facilities to meet the future needs of	
	County residents	
Health and	HS-1.4 Building and Codes	
Safata Flamant	Except as otherwise allowed by State law, the	
Safety Element	County shall ensure that all new buildings intended	
	for human habitation are designed in compliance	
	with the latest edition of the California Building	
	Code, California Fire Code, and other adopted	
	standards based on risk (e.g., seismic hazards,	
	flooding), type of occupancy, and location (e.g.,	
	floodplain, fault).	
	HS-1.5 Hazard Awareness and Public Education	
	The County shall continue to promote awareness	
	and education among residents regarding possible	
	natural hazards, including soil conditions,	
	earthquakes, flooding, fire hazards, and emergency	
	procedures.	
	HS-1.6 Public Safety Programs	
	The County shall promote public safety programs,	
	including neighborhood watch programs, child	
	identification and fingerprinting, public awareness	
	and prevention of fire hazards, and other public	
	education efforts.	
	HS-1.7 Safe Housing and Structures	
	The County shall continue to seek grant funding for	
	the rehabilitation of deteriorated and dilapidated	
	structures and provide available information	
	regarding housing programs and other public	
	services.	
	HS-1.9 Emergency Access	
	The County shall require, where feasible, road	
	networks (public and private) to provide for safe	
	and ready access for emergency equipment and	
	provide alternate routes for evacuation.	
	HS-1.10 Emergency Services Near Assisted	
	Living Housing	
	In approving new facilities, such as nursing homes,	
	housing for the elderly and other housing for the	
	mentally and physically infirm, to the extent	
	possible, the County shall ensure that such facilities	
	are located within reasonable distance of fire and	
	law enforcement stations.	

HS-4.3 Incompatible Land Uses	
The County shall prevent incompatible land uses	
near properties that produce or store hazardous	
waste.	
HS-4.4 Contamination Prevention	
The County shall review new development	
proposals to protect soils, air quality, surface water,	
and groundwater from hazardous materials	
contamination.	
HS-4.5 Increase Public Awareness	
The County shall work to educate the public about	
household hazardous waste and the proper method	
of disposal.	
HS-4.6 Pesticide Control	
The County shall monitor studies of pesticide use	
and the effects of pesticide on residents and wildlife	
and require mitigation of the effects wherever	
feasible and appropriate.	
HS-4.8 Hazardous Materials Studies	
The County shall ensure that the proponents of new	
development projects address hazardous materials	
concerns through the preparation of Phase I or	
Phase II hazardous materials studies for each	
identified site as part of the design phase for each	
project. Recommendations required to satisfy	
1 0 1	
federal or State cleanup standards outlined in the	
studies will be implemented as part of the	
construction phase for each project.

	infrastructure, and ensure safe access and	
	evacuation during flood conditions.	
	HS-9.1 Healthy Communities	
	To the maximum extent feasible, the County shall	
	strive through its land use decisions to promote	
	community health and safety for all neighborhoods	
	in the County by encouraging patterns of	
	development that are safe and influence crime	
	prevention, promote a high-quality physical	
	environment and encourage physical activity by	
	means such as sidewalks and walking and biking	
	paths that discourage automobile dependency in	
	existing communities.	
	HS-9.2 Walkable Communities	
	The County shall require where feasible, the	
	development of parks, open space, sidewalks and	
	walking and biking paths that promote physical	
	activity and discourage automobile dependency in	
	all future communities.	
Noise Policies	HS-8.5 State Noise Standards	
	The County shall enforce the State Noise Insulation	
	Standards (California Administrative Code, Title	
	24) and Chapter 35 of the Uniform Building Code	
	(UBC). Title 24 requires that interior noise levels	
	not exceed 45 dB Ldn (or CNEL) with the windows	
	and doors closed within new developments of	
	multi-family dwellings, condominiums, hotels, or	
	motels. Where it is not possible to reduce exterior	
	noise levels within an acceptable range the County	
	shall require the application of noise reduction	
	technology to reduce interior noise levels to an	
	acceptable level.	
	HS-8.6 Noise Level Criteria	
	The County shall ensure noise level criteria applied	
	to land uses other than residential or other noise-	
	recommendations of the California Office of Noise	
	Control (CONC).	
	HS-8.7 Inside Noise	
	The County shall ensure that in instances where the	
	windows and doors must remain closed to achieve	
	the required inside acoustical isolation, mechanical	
	ventilation or air conditioning is provided.	
	HS-8.8 Adjacent Uses	
	The County shall not permit development of new	
	industrial, commercial, or other noise-generating	
	land uses if resulting noise levels will exceed 60 dB	
	Ldn (or CNEL) at the boundary of areas designated	
	and zoned for residential or other noise-sensitive	
	uses, unless it is determined to be necessary to	
	promote the public health, safety and welfare of the	
	County.	
	HS-8.9 County Equipment	
	The County shall strive to purchase equipment that	
	complies with noise level performance standards set	
	comprise that noise is tel performance standards set	i

HS-8.10 Automobile Noise Enforcement The County shall encourage the CHP, Sheriffs office, and local police departments to actively enforce existing sections of the California Vehicle Code relating to adequate vehicle mufflers, modified exhaust systems, and other amplified noise. HS-8.11 Peak Noise Generators The County shall limit noise generating activities, such as construction, to hours of normal business operation (7 a.m. to 7 p.m.). No peak noise generating activities shall be allowed to occur outside of normal business hours without County approval. HS-8.14 Sound Attenuation Features The County shall require sound attenuation features such as walls, berming, heavy landscaping, between commercial, industrial, and residential uses to reduce noise and vibration impacts. HS-8.15 Noise Buffering The County shall require noise buffering or insulation in new development along major streets, highways, and railroad tracks. Safety Policies HS-1.1 Maintain Emergency Public Services The County shall require, where feasible, road catstrophes and emergency situations, the County cat and r	1	forth in the Health and Safety Element

are located within reasonable distance of fire and j		are located within reasonable distance of fire and	
law enforcement stations.			
HS-5.2 Development in Floodplain Zones			
The County shall regulate development in the 100-			
year floodplain zones as designated on maps			
prepared by FEMA in accordance with the		• • • •	
following:			
tonowing.		ionowing.	
1 Critical facilities (those facilities which should		1 Critical facilities (these facilities which -1 1-	
1. Critical facilities (those facilities which should			
be open and accessible during emergencies)			
shall not be permitted.			
2. Passive recreational activities (those requiring			
non-intensive development, such as hiking,			
horseback riding, picnicking) are permissible.			

	3. New development and divisions of land,	
	especially residential subdivisions, shall be	
	developed to minimize flood risk to structures,	
	infrastructure, and ensure safe access and	
	evacuation during flood conditions.	
	HS-5.8 Road Location	
	The County shall plan and site new roads to	
	minimize disturbances to banks and existing	
	channels and avoid excessive cuts and	
	accumulations of waste soil and vegetative debris	
	near natural drainage ways.	
	HS-5.9 Floodplain Development Restrictions	
	The County shall ensure that riparian areas and	
	drainage areas within 100-year floodplains are free	
	from development that may adversely impact	
	floodway capacity or characteristics of	
	natural/riparian areas or natural groundwater	
	recharge areas.	
<u> </u>	HS-5.10 Flood Control Design	
	The County shall evaluate flood control projects	
	involving further channeling, straightening, or	
	lining of waterways until alternative multipurpose	
	modes of treatment, such as wider berms and	
	landscaped levees, in combination with recreation	
	amenities, are studied.	
	HS-5.11 Natural Design	
	The County shall encourage flood control designs	
	that respect natural curves and vegetation of natural	
	waterways while retaining dynamic flow and	
	functional integrity.	
	HS-7.4 Upgrading for Streets and Highways	
	The County shall evaluate and upgrade vital streets	
	and highways to an acceptable level for emergency	
 	services. PFS-7.1 Fire Protection	
	The County shall strive to expand fire protection	
	service in areas that experience growth in order to	
	maintain adequate levels of service.	
	PFS-7.6 Provision of Station Facilities and	
	Equipment	
	The County shall strive to provide sheriff and fire	
	station facilities, equipment (engines and other	
	apparatus), and staffing necessary to maintain the	
	County's service goals. The County shall continue	
	to cooperate with mutual aid providers to provide	
	coverage throughout the County.	
	PFS-7.11 Locations of Fire and Sheriff	
	Stations/Sub-stations	
	The County shall strive to locate fire and sheriff	
	sub-stations in areas that ensure the minimum	
	response times to service calls.	

DEC 7.12 Design Fractures for Crime	[
PFS-7.12 Design Features for Crime	
Prevention and Reduction	
The County shall promote the use of building and	
site design features as means for crime prevention and reduction.	
PFS-8.3 Location of School Sites	
The County shall work with school districts and	
land developers to locate school sites consistent with current and future land uses. The County shall	
also encourage siting new schools near the	
residential areas that they serve and with access to	
safe pedestrian and bike routes to school.	
HS-7.8 Tulare County Multi-Jurisdiction	
Hazard Mitigation Plan	
The County incorporates the adopted Tulare County	
Multi-Jurisdiction Hazard Mitigation Plan into the	
Tulare County General Plan Health and Safety	
Element. The plan provides guidance and insight	
into the hazards that exist in Tulare County and	
suggests possible mitigation projects. The plan	
should be consulted when addressing known	
hazards to ensure the general health and safety of	
Tulare County residents.	
 HS-7.9 Climate Adaptation and Resiliency	
The County incorporates the Climate Adaptation	
and Resiliency strategies identified in California	
Government Code 65302 (g)(4) as adopted in the	
Tulare County Multi-Jurisdiction Hazard	
Mitigation Plan and Tulare County Climate Action	
Plan into the Tulare County General Plan Health	
and Safety Element.	
HS-7.3 Maintain Emergency Evacuation Plans	
The County shall continue to create, revise, and	
maintain emergency plan for the broad range of	
natural and human-made disasters and response	
activities that could foreseeably impact Tulare	
County. This shall include, but not be limited to,	
flooding, dam failure, extreme weather,	
evacuation/transportation, mass care and shelter,	
and animal evacuation and sheltering. Emergency	
Planning projects shall be in line with the County's	
Strategic Plan and Emergency Operations Plan, and	
incorporate current guidance and initiatives from	
State and Federal Emergency Management	
Agencies.	
HS-7.4 Upgrading for Streets and Highways	
The County shall evaluate and upgrade vital streets	
and highways to an acceptable level for emergency	
services.	
HS-7.5 Emergency Centers	
The County shall require emergency backup	
systems to enable uninterrupted continuous	
operations as required by the California Essential	
Facilities Act.	

	HS-7.6 Search and Rescue	
	The County should continue to provide search and	
	rescue operation capabilities for the Tulare County	
	Sheriff's Department in mountainous areas,	
	including those areas on the eastern side of the	
	Sierra Nevada that are not served by all-weather	
	roads.	
	HS-7.7 Joint Exercises	
	The County shall encourage fire, law enforcement,	
	emergency medical services, resource management,	
	public health, and other governmental and non-	
	governmental response partners to periodically	
	conduct joint training exercises with the goal of	
	developing the best possible coordinated action in	
	the event of a natural or human-made disaster	
	across all local jurisdictions.	
	HS-6.25 Emergency Response Barriers	
	The County shall support the identification of vital	
	access routes that if removed would prevent fire	
	fighter access (bridges, dams, etc.) as included in	
	the Multi-Jurisdictional Local Hazard Mitigation	
	Plan to address emergency access planning for	
	these areas.	
<u> </u>	HS-7.1 Coordinate Emergency Response	
	Services with Government Agencies	
	The County shall coordinate emergency response	
	with local, State, and Federal governmental	
	agencies, community organizations, volunteer	
	agencies, and other response partners during	
	emergencies or disasters utilizing SEMS and	
	NIMS. Urban and Wildland Fire Hazards	
	HS-6.1 New Building Fire Hazards	
	The County shall ensure that all building permits in	
	urban areas, as well as areas with potential for	
	wildland fires, are reviewed by the County Fire	
	Chief. The following minimum requirements	
	should be met to review developments or uses	
	within areas of varying fire hazards:	
	a. Very High Hazard – Extreme caution should be	
	used in allowing development, particularly critical	
	facilities.	
	b. High Hazard – Strict compliance with existing	
	State statutes and local ordinances should provide	
	adequate fire protection.	
	c. Moderate Hazard – Development should be	
	allowed, with recommendations for mitigation of	
	hazard by Fire Warden.	
	HS-6.2 Development in Fire Hazard Zones	
	The County shall ensure that development in very	
	high or high fire hazard areas is designed and	
	constructed in a manner that minimizes the risk	
	from fire hazards and meets all applicable State and	
	County fire standards. This shall include promoting	
	the use of fire-resistant materials designed to reduce	
	\mathbf{T} The vulnerability within monor of very monormer.	1
	fire vulnerability within high or very high fire hazard areas through use of Article 86-A of the	

	2001 California Fire Code, SRA Fire Safe	
	Regulations, and other nationally recognized	
	standards, as may be updated periodically. Special	
	consideration shall be given to the use of fire-	
	resistant materials and fire-resistant construction in	
	the underside of eaves, balconies, unenclosed roofs	
	and floors, and other similar horizontal surfaces in	
	areas with steep slopes. Ensure new development	
	proposals contain specific fire protection plans,	
	actions, and codes for fire engineering features for	
	structures in Very High Fire Hazard Safety Zones	
	including automatic sprinklers as required by	
	applicable codes.	
	HS-6.3 Consultation with Fire Service Districts	
	The County shall consult the appropriate fire	
	service district in areas identified as subject to	
	high and very high fire hazard, for particular	
	regulations or design requirements prior to	
	issuance of a building permit or approval of	
	subdivisions.	
	HS-6.4 Encourage Cluster Development	
	The County shall encourage cluster developments	
	in areas identified as subject to high or very high	
	fire hazard, to provide for more localized and	
	effective fire protection measures such as	
	consolidations of fuel build-up abatement, firebreak	
	maintenance, firefighting equipment access, and	
1		
	water service provision.	
	water service provision. HS-6.5 Fire Risk Recommendations

Standards as set forth in the subdivision ordinance shall be maintained and improved as necessary. HS-6.8 Private Water Supply The County shall require separately developed dwellings with individual private water supply to provide an acceptable guaranteed minimum supply of water for fire safety, in addition to the amount	
	 HS-6.5 Fire Risk Recommendations The County shall encourage the County Fire Chief to make recommendations to property owners regarding hazards associated with the use of materials, types of structures, location of structures and subdivisions, road widths, location of fire hydrants, water supply, and other important considerations regarding fire hazard that may be technically feasible but not included in present ordinances or policies. HS-6.6 Wildland Fire Management Plans The County shall require the development of wildland fire management plans for projects adjoining significant areas of open space that may have high fuel loads. HS-6.7 Water Supply System The County shall require that water supply systems be adequate to serve the size and configuration of land developments, including satisfying fire flow requirements. Standards as set forth in the subdivision ordinance shall be maintained and improved as necessary. HS-6.8 Private Water Supply The County shall require separately developed dwellings with individual private water supply to provide an acceptable guaranteed minimum supply	

	HS-6.9 Fuel Modification Programs	
	The County shall actively support fuel modification	
	and reduction programs on public and private lands	
	throughout the County, including vacant residential	
	lots and greenbelts and, with the relevant partners,	
	on adjacent private wildlands or federal lands with	
	fire hazards that threaten the entity's jurisdiction as	
	feasible and appropriate.	
	HS-6.10 Fuel Breaks	
	In the Foothill and Mountain Plan Areas, the	
	County shall require fuel breaks of at least 100 feet	
	around structures that are in a wildland fire area to	
	limit the risk of fires and property loss. Secondary	
	fuel breaks up to 200 feet in width shall be required	
	when the County Fire Chief finds that additional	
	precautions are necessary.	
	HS-6.11 Fire Buffers	
	The County shall strive to maintain fire buffers	
	along heavily traveled roads within high and very	
	high hazard zones by thinning, disking, or	
	controlled burning. Parks, golf courses, utility	
	corridors, roads, and open space areas shall be	
	encouraged to locate so they serve a secondary	
	function as a fuel break.	
	HS-6.12 Weed Abatement	
	The County shall continue to encourage weed	
	abatement programs throughout the County in order	
	to promote fire safety.	
	HS-6.13 Restoration of Disturbed Land	
	The County shall support the restoration of	
	disturbed lands resulting from wildfires.	
	HS-6.14 Coordination with Cities	
	The County shall coordinate with cities to develop	
	cohesive fire safety plans with overlapping	
	coverage.	
	HS-6.15 Coordination of Fuel Hazards on Public	
	Lands	
	The County shall work with local and Federal	
	agencies to support efforts to reduce fuel related	
	hazards on public lands.	
	HS-6.16 Consideration of Diverse Occupancies	
	and their effects on Wildfire Protection	
	The County shall strive to ensure risks to uniquely	
	occupied structures, such as seasonally occupied	
	homes, multiple dwelling structures, or other	
	structures with unique occupancy characteristics,	
	are considered for appropriate and unique wildfire	
	protection needs.	
	HS-6.17 Integration of Open Space into Fire	
	Safety Effectiveness	
	The County shall strive to address the facilitation of	
	safe fire suppression tactics, standards for adequate	
	access for firefighting, fire mitigation planning with	
	agencies/private landowners managing open space	
	adjacent to the County jurisdictional area, water	
L	augueent to the county jurischenonal area, water	

	sources for fire suppression, and other fire	
	prevention and suppression needs.	
	HS-6.18 Mitigation for unique pest, disease and	
	other forest health issues leading to	
	hazardous situations	
	The County shall strive to address unique pest,	
	disease, exotic species and other forest health issues	
	in open space areas for purposes of reducing fire	
	hazard and supporting ecological integrity.	
	HS-6.19 Wildfire Risk Reduction related to	
	Climate Change	
	The County shall strive to reduce the wildfire risk	
	as it relates to climate change, such as the drought	
	and it's relation to tree mortality by implementing	
	the Tree Mortality Removal Plan.	
	HS-6.20 Fire Suppression Defense Zones	
	The County shall support the creation of wildfire	
	defense zones for emergency services, including	
	fuel breaks or other staging areas where WUI	
	firefighting tactics could be most effectively	
	deployed as appropriate consistent with the	
	strategies identified in the Multi- Jurisdictional	
	Local Hazard Mitigation Plan.	
	HS-6.21 Redevelopment of Structures in High	
	and Very Hazardous Areas	
	In High and Very hazardous areas, the County shall	
	strive to ensure that the redevelopment of structures	
	utilize state of the art fire resistant building and	
	development standards to improve past	
	'substandard" fire safe conditions as feasible and	
	appropriate according to applicable codes.	
	HS-6.22 Long Term Maintenance of Fire	
	Hazard Reduction Mitigation Projects	
	Consistent with the Multi-Jurisdictional Local	
	Hazard Mitigation Plan, the County shall support	
	maintenance of the post-fire-recovery projects,	
<u> </u>	appropriate.	
	HS-6.23 Reassessment of Fire Hazards	
	Following Wildfire Events	
	The County shall strive as reasonable and	
	appropriate to adjust fire prevention and	
	suppression needs for both short and long term fire	
	protection in the reassessment of fire	
	hazards following wildfire events.	
	HS-6.24 Consideration of Wildlife	
	Habitat/Endangered Species in Developing Long	
	Term Fire Area Recovery and Protection Plans	
	The County shall consider wildlife	
	habitat/endangered species in developing long term	
	fire area recovery and protection plans, including	
	environmental protection agreements such as	
	natural community conservation plans.

		L

·		· · · · · · · · · · · · · · · · · · ·
	HS-6.25 Emergency Response Barriers	
	The County shall support the identification of vital	
	access routes that if removed would	
	prevent fire fighter access (bridges, dams, etc.) as	
	included in the Multi-Jurisdictional Local	
	Hazard Mitigation Plan to address emergency	
	access planning for these areas.	
Water	WR-2.1 Protect Water Quality	
	All major land use and development plans shall be	
Resource	evaluated as to their potential to create surface and	
Element	groundwater contamination hazards from point and	
Element	non-point sources. The County shall confer with	
	other appropriate agencies, as necessary, to assure	
	adequate water quality review to prevent soil	
	erosion; direct discharge of potentially harmful	
	substances; ground leaching from storage of raw	
	materials, petroleum products, or wastes; floating	
	debris; and runoff from the site.	
	WR-2.2 National Pollutant Discharge	
	Elimination System (NPDES)	
	Enforcement	
	The County shall continue to support the State in	
	monitoring and enforcing provisions to control non-	
	point source water pollution contained in the U.S.	
	EPA NPDES program as implemented by the Water	
	Quality Control Board.	
	WR-2.3 Best Management Practices (BMPs)	
	The County shall continue to require the use of	
	feasible BMPs and other mitigation measures	
	designed to protect surface water and groundwater	
	from the adverse effects of construction activities,	
	agricultural operations requiring a County Permit	
	and urban runoff in coordination with the Water	
	Quality Control Board.
